

AUSTRALIAN. AI-POWERED. RELIABLE.

Why Uniden Voice Is Australia's Most Popular Phone System

100% Australian built, hosted and supported. AI included as standard. 50+ premium features on simple per-user pricing, and we'll beat any competitor's quote.

Australian businesses choose Uniden Voice because it gets the fundamentals right and then adds what others charge extra for. It is **100% Australian built, hosted and supported**, with 24-hour local support and a dedicated account manager, no DIY portals. **AI is included as standard**, not a \$300-a-month add-on, and you get 50+ premium features on one simple per-user plan with no minimum users. Add the proven reliability of Uniden hardware, apps on every platform, open APIs, and a promise to beat any competitor's quote, and the reason it is so popular becomes obvious.
